The directors of the Oberlin Bank testified that they knew nothing of the loans to Mrs. Chadwick until the bank had failed, as the minutes did not show any such transactions. The testimony that the woman used a signature other than her own may not have an important direct bearing on the con-spiracy charge, but its admission as evidence, it is believed, will not be without its effect Mr. Carnegie was not in court to-day, and the probabilities are that he will not be called upon to testify, although he will be detained until the case is concluded. It is not the intention of Mr. Sullivan to use Mr. Carnegie except in rebuttal. There is now little probability that the Gcvernment will have to put in any rebutting testimony, as there is every appearance that the defence will rest content to submit the case to the jury as soon as the Governthe case to the jury as soon as the Govern-ment closes, without offering any testimony.
